Sailing team qualifies 2nd

By W. Thomas Compton

The sailing team lost another one, this time at the qualifying round of the N.R.E.L.S.A. Team Racing Championships at Coast Guard. MIT came in second behind University of Rhode Island. Last week they lost their boat in a heat at URI and were tied with URI at the end of Saturday's racing. Both were far ahead of Boston. The following day URI qualified in first place, and MIT qualified in number two spot. Next weekend they sail for the Novina Memorial Trophy at Kings Point, New York.

Heritage of Tech Sailors: Eleven national champs

By Jerrold M. Sabath

As this year's sailing season draws rapidly to a close, it is interesting to take a look at the development of this sport at the intercollegiate level of competition.

The first college yacht clubs were founded in the 1890's at MIT, Brown, Harvard and Yale. Little interest in intercollegiate competition developed, however, until after the first World War. Following the initial running of the renowned McMillan Cup, the Intercollegiate Yacht Racing Association was formed by the above colleges and in addition, Dartmouth, Cornell and Williams.

College Boats came into being in 1938 at Princeton University. The following year, under the direction of Professor Scheib and the late George Owen, the MIT Boatshed was constructed and designed. Financed by generous alumni and sailing enthusiasts, the original forty boats constituted the largest college fleet for many years.

Prior to World War II, a wide variety of sailing competitions were initiated. Among them were several which survived the war and are still popular: the Pentagomal Regattas, the Daub Trophy, and the Schell Trophy are just a few.

Today, intercollegiate sailing reaches all the way across the United States as well as into Canada. The nation is divided into six sections under the jurisdiction of the Intercollegiate Yacht Racing Association of North America. Each year, two winning colleges from each section compete for the national championship.

The sailing team at MIT is constantly superior to the teams representing other colleges. In the two categories of the sport, competitive and club, Tech has taken the championship eleoncally in every year, and placed first or better in nearly all the others. This year the team did as well again, and again, and in all four trophies it entered.

Frosh B-ball tryouts

To be held Oct. 28th

Tryouts for this year's freshman basketball team will be held in the Armoury on Wednesday, October 28 at 9:30 p.m. Anyone who is participating in a fall sport and would like to tryout at a later date should notify Coach Sigler before the first tryout. Both tryouts should be present and ready to play at the above time.

Squash enthusiasts!

There will be a rally to begin the winter and freshman Squash Team season at 5:00 pm. in the T-Club lounge in the Armoury on Thursday, October 28. Anyone interested should come. Experience is not a necessity. No obligation.

Work with a group worth standing out in.

The more competent your co-workers are, the greater your satisfaction when you've done something really well. And the better your choices are to learn so you can move on to additional responsibilities and rewards.
