Bridgeport soccer tops MIT 5-1; Stepaniuk scores lone Tech goal

Forty seven seconds into the second period was all it took for the University of Bridgeport soccer team to take a lead which it would keep and finally build up to a 5-1 romp over MIT at Bridgeport, Saturday.

MIT scored the first goal of the old, windy afternoon as Nick Koolakas tallied the first of his two goals. However, this cold, windy afternoon as Nick Koolakas romped over MIT at Bridgeport, Stepansiuk didn’t take long for the hosts to take the lead, as Ron Vertallies scored the only goal of the second period when he drove in the winning score at 0:47.

The second half proved to be easy sailing for Bridgeport, featuring another goal each by Vertallies and Rokkadas, inside right and inside left, respectively. Their goals came within one minute of each other, at 6:15 and 7:08 of the third quarter.

The fourth quarter, in which both teams saw plenty of action, had only one goal, when Bill Allen, a Bridgeport sub scored at 0:50, thus making the score 5-1.

The game was very disappointing for the Techmen as it lowered their record to 5-5, with only two games remaining. This week MIT will entertain Brandeis on Monday at 3:30 and the University of Connecticut on Thursday at 3:00, both games to be played on Briggs Field.

IM Basketball

Defenses strong in 1st week’s games

By Russ Mosebiller

The first week of major league intramural basketball games has produced some really surprising results. Games generally were fairly close, and MIT’s defense is a noticeable feature, as it scored no more than 31 points, and only seven goals came within one minute of each other, at 6:15 and 7:08 of the third quarter.

IM cross country teams to run Veteran’s Day

Intramural cross-country runners take to Briggs Field for their annual fall meet, next Wednesday, November 11 at 3:00 pm. They will be shooting for the team title held by Boston House and the individual title taken by Peter Stucelker ‘64. Last year some 63 runners and 14 teams entered the relatively new sport, and this year’s turnout should be even larger.

Teams consist of five men; for groups entering five or more, the first five make up the team, the second five the B team, and so on. Each team must have at least one member from each class. Coaches are responsible for signing in the first five men, women, and the average time in disposing of the Fijis, 52-35. Theta Chi A took the third spot mark during the week. The coming weekend promises to be another exciting one. The American League features a contest between Grad Economics and the surprising Theta Chi team.

National League selection will be highlighted by games between Political Science and Bode A, and Phi Delta and Grada House A.
