Lincoln Lab's LES-1 attempted to test new experimental equipment

(Continued from Page 1)

the LES-1 is conceptually different, using no elaborate stabilization techniques. Your options detectors sense the direction from which the signals are received and turn on eight moderately directional transmitters, all pointing toward the earth.

The danger of temperature imbalance due to the intense sunlight are remedied by a simple, lightweight method. During the day, by reflection, using no elaborate stabilizing technique, the instrument occurcs and produces a torque (1)

Potential delegates sought for student conferences

Delegates are needed to attend five conferences on problems of United States foreign and domestic policy.

The conferences will be held at various colleges and universities through the country beginning on May 9 and April 25. The traveling expenses of the delegates will be paid.

The subject of the first conference will be "Latin America: How Much Progress?" and will convene at Brown & St. John's, March 7. A second group will assemble at Wake Forest for March 13 to discuss 'The Emerging World of the American Negro.' At the U.S. Air Force Academy, "The Congress and America's Future" will be discussed between March 21 and April 3.

A recent crisis will be the topic in the conference entitled "Vietnam," scheduled for April 24 at Princeton, Illinois. And finally, "Problems of United States Foreign Policy in Asia and the Middle East" will wind up the series at the U.S. Naval Academy from April 21-25.

Anyone interested in participating should sign up at Litchfield Lounes (room 06-103) by Thursday afternoon.

MIT awards 286 degrees to 286 graduate and undergraduate students on February 17; seventeen students receive two degrees.

Degrees awarded include two Bachelors of Architecture, 27 Bachelor's of Science, 14 Masters of Science, 14 Engineering, 20 Doctors of Science and 38 Doctors of Engineering, plus 60 S.B.'s, 3 Ph.D. & 3 Ph.D. degrees were awarded to women.

Recipients of February degrees may accept them at the June Commencement exercises if they so choose.
