At MIT, not another Berkeley

We have received several letters denouncing a group of other students who have not been so abashed as the Students’ Association, which in fact and in tone more nearly mirrors the feelings of the majority of us, a majority that is large enough to move a student whose life has been filled with the personal problems of making the grade, the behest of intentions, however, are doomed to failure if not backed by a demonstration from the citizens of Selma.

Apathy is not a local problem, nor even a regional one—this is the heart of the American way of life. And to combat it, two things are necessary: a voice present somehow, the heart of the individual must be inspired to action.

To the Editor:

We also hope Inscomm discusses another topic we will bring the topic up for discussion; but one might send an anonymous letter on this matter, if deemed by the editor to be of sufficient interest or benefit to the community. Brevity increases the chance of publication. Anonymous letters will not be printed in whole or in part, if considered to be incoherent, serious to the mildly amusing. The editorial board reserves the right to edit letters but will make every effort to keep the meaning intact.
