Bash Building dedicated in honor of former Corporation Chairman

By Dr. Vannevar Bush

The new science building at the Massachusetts Institute of Technology was dedicated on Friday with a ceremony attended by numerous guests, including the Rockefeller family.

The dedication was held at the newly constructed Bash Building, which is named after the late Dr. Vannevar Bush, an MIT alumnus who was a key figure in the development of the Institute's academic and research programs.

Dr. Bush was a guest at Saturday ceremonies dedicating the new building. He was introduced by former MIT President Julius A. Stratton, who noted Bush's contributions as an engineer and an educator.

Dr. Bush was one of the original supporters of the Institute's research programs, and he played a key role in the development of the institute's scientific and technological capabilities.

The dedication ceremony included a special address by the Rockefeller family, which has been a major benefactor of MIT and other academic institutions.

The new building is designed to accommodate the Institute's growing research and educational programs, and it includes state-of-the-art facilities for science and engineering.

The ceremony was held at 3 p.m. in the new building, which is located on the MIT campus. The event was attended by a large number of guests, including current and former MIT faculty members, administrators, and students.

Dr. Brown visits MIT

By John Corwin

Dr. Brown, head of the Massachusetts Institute of Technology (MIT) Department of Aeronautics and Astronautics, visited the Institute on Friday.

During his visit, he met with faculty members, students, and staff to discuss the Institute's research and educational programs.

Dr. Brown, who is a distinguished engineer and educator, has made significant contributions to the fields of aerospace engineering and applied mathematics.

In his address, he praised the Institute's academic and research programs, and he encouraged faculty members and students to continue to pursue excellence in their work.

Dr. Kindleberger succeeds Shapiro as chairman of MIT Faculty

By Dr. Charles Kindleberger

Dr. Charles Kindleberger, professor of economics, has been chosen as chairman of the Faculty of Arts and Sciences, succeeding Dr. Arthur H. Shapiro, who resigned after his term as chairman.

Dr. Kindleberger, who is a leading expert on international finance and economic development, has been at MIT since 1958.

He has served as the department chairman of the Department of Economics, and he has been a member of the MIT faculty for over 30 years.

Dr. Kindleberger is known for his research on international finance and economic development, and he has made significant contributions to the field.

He has been a member of the Institute's Committee on Finance, and he has served as the chair of the Committee on International Economics.
