$800 in awards offered in annual undergraduate Course II contest

Undergraduates in the Department of Mechanical Engineering are being offered the opportunity to compete for the annual Luis de Florez Awards for Outstanding Ingenuity in Mechanical Engineering. First prize in the MIT-sponsored contest is $300; honorable mention is $200.

Rear Admiral Luis de Florez '11 bequested a distinguished engineer and prolific inventor. He set aside funds to establish the annual awards, and since his death in 1962 a trust has provided for the continuation of the de Florez Awards in his memory.

Any substantial work in which there is “evidence of ingenuity and creative skill” in the field of mechanical engineering is acceptable entry material. Original projects as well as class projects and assignments in various course II subjects are eligible. Senior theses are also acceptable. The contest rules require that entrants obtain a sponsor familiar with the project. A resume not to exceed two typewritten pages must be submitted.

Prof. Zeldin dies, taught at MIT for over 40 years

Dr. Samuel Dempsey Zeldin, Associate Professor of Mathematics, Emeritus, died Tuesday, November 2, at the Mount Auburn Hospital in Cambridge. Professor Zeldin retired from full-time teaching in June, 1969, but continued as a lecturer in the Math Department until failing health caused him complete retirement in March, 1964. During his long career of teaching at MIT, begun in 1919, he always had a deep interest in students and was friend and advisor to many. In research he was especially involved in the theory of continuous groups and contributed several papers on the subject.

The Bulleted Board

Compiled by the Public Relations Committee of the Student Government, The Bulletin Board is a weekly service of the PRC and The Tech.

Meetings and events may be included in this article and in the MIT Student Bulletin by filling out a form in the University office or in Mr. Jim Murphy's office in the Student Center at least three days in advance of the week the event is to occur.

Deadline for events of the week of November 23-28 is today, November 30.

Further information may be obtained from Rob Howard (CS/72), editor of The MIT Student Bulletin.

Wednesday, November 10
