Singer to speak to Hillel

MIT Hillel will present the 28th semi-annual Morris Burg Memorial Lecture on Sunday, November 21, at 8:00 p.m. in Kresge Auditorium. The noted author, Sholem Aleichem Singer, will speak on the topic, "The Rabbah and Modern Man."

Among Mr. Singer's works are "Satan in Goray," "The Slave," and "The Family Moskat." The latter won the Louis Lamped Prize for Literature. His short story "Gimpel the Fool," is part of the curriculum for 21.08.

Professors serve as consultants; Kanpur provides needed engineers (Continued from Page 14)

By 1970, when the institute will be in full operation, U.S. assistance will have totalled more than $80 million. In addition, the Government of India has committed rupees equivalent to more than $80 million to the institute.

Midway through its development program, the institute has already come a long way. It opened in 1969, with a small faculty, 100 undergraduates, and rented quarters in the city of Kanpur. Today, construction still continues on the 1,000-acre campus on the south bank of the Ganges River.

Today there are more than 1,000 students (200 in graduate work), and a 355-man faculty that includes some of the nation's top-flight talent. When completed it will accommodate 1,000 undergraduates and 400 postgraduates; besides research scholars and post-doctoral fellows, and a 250-man faculty—will reside on the campus.

The Kanpur Institute has settled down to its long-term task of preparing engineers India needs at every level of its economic development. The U.S. has dispatched an IBM 3609 for use by the institute and the Indian industries as well as the American talent there. A second computer (IBM 7094) will arrive by the end of this year.

MIT professors, and others, serve as consultants and professors at Kanpur. Consultant fees for one- to six-month assignments, the professors for one to six years. Some become so involved that they agree to extend their tenure. Thirty U.S. faculty members have returned after completing their tours. Many look forward to returning once again to continue their work in India.

Open Christmas party set for Student Center

The Student Center Committee will sponsor a Christmas party for all students Friday, December 11. The party will be held in the Student Center Library. Music and entertainment will be provided in order to give the occasion a holiday atmosphere. The Student Center Committee hopes that all social chairman include the party in their group's planned activities for December 11.

IT'S 200° BELOW ZERO OUT THERE!

THAT'S OKAY. I'M WEARING MY U.S. RUBBER EXTRATERRESTRIAL UNDERWEAR.

U.S. RUBBER?

THE TIRE COMPANY?

Today, U.S. Rubber is involved in many fields including atomic research, oceanography and space research. One of our representatives will be visiting your school soon. Check with your placement office for the exact date and time.
