1. If you have these apples, and you want to divide them amongst four of you, how much fruit does each one get?
One apple. I don’t like apples.

2. You’re not much for math either.

3. Do you need calculus to manufacture fortune cookies?

4. You might become an actuary.

5. You’re going to do it with skill and knowledge.

6. It’s true. When you pass an actuarial exam, you get an automatic increase in your Equitable salary. And since there are ten exams, you could be making quite a bundle there. But don’t get involved unless you have an interest in math.

7. You’re not much for math either.

Swim Club presents Aqua Capers

By David Lyon

The MIT Swim Club is presenting its Aqua Capers ’65, a show of comedy diving and precision synchronized swimming at the Alumni Pool November 29. This year’s show promises to be even more spectacular than last year’s affair which played to standing room only crowds. Among the performers this year are some of the top professional and amateur swimmers and divers in the country.

Famous diving team

Richard Kimball, world professional diving champ and 1964 Olympic coach, exhibits part of the form that he will display at the Swim Club’s Aqua Capers ’65 at the Alumni Pool Saturday at 7 and 9 competition. Miss DeeDee Berle, current Eastern Regional Champion in synchronized swimming, is a member of the group.

German also coming

Frank Gorman, 1965 silver medallist in diving at the Tokyo Olympics, is flying in to take part in the Aqua Capers. Frank won three consecutive Eastern Diving Championships while at Harvard and is considered one of the finest amateur divers in the country. During the show he will be performing with the comedy team of Kimball and O’Brien and will also be putting on a solo exhibition.

Toppling off all this will be a performance by the MIT Logaphyths. Aqua Capers ’65 will be presented twice, at 7 and at 9 p.m. Saturday. Tickets are $1.50 for the 7:00 show and $1.75 for the 9:00 performance. Tickets are now on sale in Burton 10 and at the Alumni Pool. For reservations the number to call is US 4400, X4291.

Ruggers drop 2 close games; both squads fall to Dartmouth teams

By Larry White

In one of the hardest played and closest games of the season, MIT’s Rugby Club lost to Dartmouth Saturday by a score of 34-32. The B team also lost a close one to Dartmouth B 8-6.

Both teams were close to each other, but the A team kicked a try after their kickoff against Dartmouth. The B team kicked a try after their kickoff against Dartmouth.

Rugby is a sport that player must be able to score points by kicking the ball and passing the ball. The game is played on a field that is 100 yards long and 75 yards wide. The object of the game is to get the ball into the opponent’s territory and score points by kicking the ball over the opponent’s goalposts.

The A team’s record to date is a lossless 0-0, while the B team’s record is 1-1. The A team lost its only game to Dartmouth, while the B team won its only game against Harvard.

The A team’s next game is against Harvard on Saturday, while the B team’s next game is against Dartmouth on Sunday.

Nautical Assoc. holds sailing talks

The MIT Nautical Association is holding a winter lecture series entitled “Seminars on Seaman ship,” dealing with topics of interest to everyone who enjoys sailboats and the sea. The lectures will be given on Wednesdays at 7:30 p.m., with room and topics to be posted around the Institute. All members of the MIT Community are welcome.
