Blood drive receives record
mount for Hemophilia Association

By John Blackstock
In her congratulations, "I would like to thank all of you, who
made the BSC's annual blood drive for the Hemophilia Asso-
ciation a success. Last year we collected 113 pints of blood
from 46 people, which was a record number. This year, we
have already collected 121 pints from 68 donors. This year's
collection has been above our expectations and we are on our
way to超过 last year's record.

The success of the drive is due to the hard work and dedica-
tion of the volunteers who helped with the collection and the
organization of the event. They arranged for the collection
sites, prepared the necessary materials, and helped with the
registration and thank-you notes.

The blood collected will be used to help patients with
diseases that affect the blood's ability to clot. This includes
Hemophilia, a hereditary disorder that affects the blood's
clotting因子.

Thank you to everyone who donated blood and to those
who helped in any way. Your generosity makes a difference in
the lives of those who need it most.
