I proposed.

Radio astronomy used in OH-spectra study; new substance found

Since the discovery of interestel-
lar hydrogen in 1933, many researches have been un-
ging the use of radio astronomy to analyze their emission and ab-
sorption spectra. The Effin Com-
pany, Semmer, decided the scope of the research and described the present status as
below.

Radio astronomy used in OH-spectra study; new substance found

since the discovery of interstellar hydrogen in 1933, many researches have been using the use of radio astronomy to analyze their emission and absorption spectra. The Effin Company, Semmer, decided the scope of the research and described the present status as below.

Bertolt Brecht play staged at Kresge

The Theatre Company of Boston will present its rendition of Bertolt Brecht's "The Threepenny Opera" at Kresge Auditorium on Monday, January 10, at 8:30 p.m. The production, sponsored by the MIT Department of Humanities, is recommended for those students taking 21.06 but is open, free of charge, to any member of the MIT community.

No tickets are necessary, admission is on a first-come, first-serve basis.

The play is currently running at the Theatre Company's location in the Hotel Touraine, 290 Newbury Street, Boston. Ticket reservations can be obtained by calling HA 8-9923.

Work of Preussner on exhibit in Boston

Paintings by Professor Robert Preussner of the Department of Architecture will be featured at an art exhibition opening on January 8.

Robert Preussner was born in Boston in 1939. He came to MIT as a visiting lecturer in 1984 and has been an Associate Professor of Architecture since 1986.

Recent paintings by Robert Preussner will be exhibited from January 8 until January 15 at the Joan Pascarel Gallery, 218 Newbury Street, Boston.
