Applications due for weekly classes offered by Student Center Art Studios

MIT student art work will be exhibited next week in the lobby of the Student Center Library, according to Mrs. Mimi Luft, head of the Student Center Art Studio.

The artwork is primarily that completed by members of Mrs. Luft's classes, which meet weekly Tuesday and Wednesday nights from 7:30 to 9:30 p.m. in the art studios located on the 5th floor of the Student Center.

The Tuesday class includes oil painting, while that on Wednesday is mainly concerned with drawing with life and portrait models.

Open to anyone in the MIT community, the classes entered their first year this past September. "Beginners shouldn't be afraid to come over and try their hand," explained Mrs. Luft. "Almost everyone is just starting."

Classes will be offered again next term. "The interests of the students involved will determine the curriculum," said Mrs. Luft. "Those interested should sign up as soon as possible by coming in to see me on any Monday or Thursday afternoon or just before one of my classes."

There will be about 30 students in each class. A fee of $8 plus locker rental charge of $2 will make total registration costs $10. In addition, students in the drawing class can expect to spend $2-3 for supplies, while for those in the oil painting section they will probably cost about $25. All supplies may be purchased at the Coop.

The Student Center Art Studios consist of three rooms, the large main studio, a smaller one, and Mrs. Luft's office. The studios are presently set up for easels. They also include lockers and storage racks for canvases.

Mrs. Mimi Luft, head of the Student Center Art Studios, criticizes the work of Pierre Dogan '66. Art classes are offered to all members of the MIT community. The work of the past year will be exhibited in the Student Center Library.

Said Mrs. Luft, "The studios themselves are open at any time to any member of the MIT community."

UNIVERSITY OF CALIFORNIA

LAWRENCE RADIATION LABORATORY

LIVERMORE, CALIFORNIA

OPERATED BY THE UNIVERSITY OF CALIFORNIA FOR THE UNITED STATES ATOMIC ENERGY COMMISSION

MAJOR PROGRAMS NOW UNDER WAY:

PLOWSHARE—Industrial and scientific uses of nuclear explosives.

WHITNEY—Nuclear weapons for national defense.

SHERWOOD—Power production from controlled thermonuclear reactions.

BIOMEDICAL—The effects of radioactivity on man and his environment. Far-reaching programs utilizing the skills of virtually every scientific and technical discipline.

Laboratory staff members will be on campus to interview Science and Engineering students Wed., February 16 & Thurs., February 17. Call your placement office for an appointment.
