March wins UAP contest

By Gerry Banner

Frank March '67 of Barton House, was elected Undergraduate Association President for 1966-67 in the annual student government elections held yesterday. March defeated four other candidates for Undergraduate student government's highest post. George Piccaglia '67 of B Meta House was second, and Ted Nygren '67 of Sigmas Alpha Epsilon was third.

March and Piccaglia ran very close on the first two ballots until the second place votes of Nygren's supporters were counted. Together the two candidates went to March on the third ballot, which gave him a 225-vote victory.

Also chosen in yesterday's elections were next year's class officers. The new class presidents are: Bill Byrne, Permanent President of the Class of 1966; Jim Swanson, Class of 1967; Scott Davis, Class of 1968; and Mark Mathis, Class of 1969.

March released the following statement to The Tech upon notification of his victory: "I am very happy to have this opportunity to serve as UAP and hope we can work to make this next year a very meaningful one."

A record number of 218 votes were cast in the UAP contest. The number of voters was considerably higher than Secretariat officials had anticipated, and new additional ballots had to be printed up for every race except Class of 1966 officers.

Chuck Berry swings at IFC blast

The week of March 7-12 has been designated as Peace Corps Week at MIT. Plans are being made to set up a Peace Corps Information Center at the Placement Bureau (E19-455), and all interested persons are urged to talk to captured Peace Corps Volunteers and Peace Corps Staff members about the various opportunities for Peace Corps service. In addition, the Peace Corps Placement Test will be administered several times daily, and all applicants should fill out the Peace Corps Questionnaire before taking the test.

Approximately 150 former MIT students have served or are serving in the Peace Corps in the following countries: Bolivia, Colombia, Panama, Tanzania, and Defense Technology Undergraduate Association President. The address is sponsored by the MIT Society for Social Responsibility in Science.
