In the final IM golf tournament ever, Phi Delta Theta's Dennis Moses '69, New England's $10,000 low Insurance. Kendall Wm. MacDonald
Company first mover, led the field by 25 strokes over Arnot's Rick Marcus '86, East Campus' Millson, Phi Delta's Clarke all posted scores of 88.

In the second half, Fred M. Clark scored and made scoring again on a shot off the right side of the visiting goales. With one minute left, MIT lost a man on a penalty, but the defense managed to hold the scoreless tie.

Light crew wins
The lightweight crew team came home from Pennsylvania with two wins. The second boat finished two lengths ahead of Penn and also defeated a Cornell boat. Cornell, defeated by MIT last week, traveled to the races for another chance, but lost by a length.

The first boat trailed by a half length at the 5 mile mark in the 2000 meter race, but pulled even with a quarter mile to go. They continued to pull ahead and won by a half length in a time of 6:47.

With only two losses in the season, the lights are expected to do very well at the upcoming regatta.

Who is your ideal date? Thousands use Central Control and its high-speed computer for a live, flesh-and-blood answer to this question.

Your ideal date—such a person exists, of course. But how to get acquainted? Our Central Control computer processes 10,000 names as fast as a human can match and alert subscribers, as all sharing the desire to meet their networks.

You will be matched with five ideally suited persons of the opposite sex, right in your own locale (or in any area of the U.S. you specify). Simply, send $3.00 to Central Control for your questionnaire. Each of the five will be sent to you in interests, and our computer can match you in only minutes.

All five of your ideal dates will be delightful. So hurry and send your $3.00 for your questionnaire.
