Faculty members of the Beta Theta Pi chapter at MIT have been recipients of various scholarships awarded annually by Beta Theta Pi. These scholarships include the Schroeder Scholarship, one of the most prestigious, contributed at this time was the Dr. Killian Scholarship, which was established in 1956.

Stratton worked more closely with the Institute's new president, Dr. Killian, in the early years of his presidency. Killian strove to improve the Institute's maturity and stature, which perhaps indicates of the Institute's success. Dr. Killian for the second time was nominated for the Nobel Prize in Physics.
