Don had his pick of jobs but he chose Photocircuits. For a good reason. Today he's Manager of Corporate Planning and Systems... quite a responsibility for a guy who's only 35 years old. But Don can handle it. That's why Photocircuits picked him for this key management position. For Don, it's paid off handsomely. Besides enjoying plenty of personal fulfillment and job satisfaction, Don gets a tremendous kick out of changing the State-of-the Art into the state of being. So will you.

By the way, Photocircuits is one of the world's largest independent manufacturers of printed circuits. We also make printed armature motors and data processing equipment. All three are exciting, fast-growing fields. More important, Photocircuits itself is growing fast. We've expanded our plant seven times and our annual sales are increasing at the rate of 35%. And we've done all of these things in just 14 years.

We're growing—but not so big or so fast that you'll feel lost in the shuffle—or wind up in dead-endsville—or be known by a number instead of a name.

If you've got what it takes to join Photocircuits, we promise you all the RECOGNITION, GROWTH and SATISFACTION you're capable of attaining.

We need more men like Don Fischer. If you're an EE, ME, Ch E, IE, Mgt E, Chemist, BBA, Accountant—up to PhD, level see us on campus.
