Coed sailors take first at Radcliffe

By Sue Brown

MIT's women sailors took first place in the varsity division of the Radcliffe Invitational F All 11 Regattas last Saturday. Held at the MIT sailing pavilion, in winds ranging up to 20 knots, they beat South, 28, with Alix and Yvonne Hoffman '68, crewing. Ruth placed first in three races, second in two, and third in one. Last year, they won the varsity division. Last year's varsity sail was Ruth Peterson '67, with Sue Dawson '68 as crew.

White Water club meets tonight

Tonight, the MIT White Water Club will present films of championship kayaking and canoe racing. The films will be commented on by Mr. Bart Hauthaway, a member of the U.S. team in the 1965 World Championships White Water races. Mr. Hauthaway, Eastern Champion of the American Canoe Association, will discuss the fundamentals of swift-water kayaking.

The meeting is scheduled for 8 pm in room 407 of the Student Center, and is open to the MIT community. For additional information, call Ed Mattison, x 2559.

Engineers and Scientists:

SAIL UNCHARTED SEAS WITH PHILCO

Philco is committed to advancing the state of almost every technical art—from engineering to manufacturing, from anti-weapons systems to underwater communications, from space age instrumentation to home air conditioning. Because we are accustomed to working in advance of everyone else, we don't always know exactly where our course may take us—except that it is forward. And we need bright, creative, ambitious people to help us take there.

Some other facts about Philco: We are a major subsidiary of Ford Motor Company. We are a company fast approaching $1 billion in annual sales to consumer, industrial and government markets. We offer stimulation, responsibility, and above all, a bright future.

If you'd like to join us in a fast-paced, rewarding career position, we'd like to talk to you. We will be visiting your campus on October 26, 27 and 28. Contact your Placement Office. Stop by and talk to us about your future or write to College Relations, Philco Corporation, C & Tioga Sts., Phila., Pa. 19134.

PHILCO WILL BE HERE OCTOBER 26, 27 AND 28

Career opportunities available on the East Coast, the Midwest, the Southeast, the West Coast, and throughout the world.

Departments: Aeronautical • Appliance • Communications & Electronics • Consumer Electronics • Internals • Landable • Microelectronics • Sales & Distribution • Technog • Western Development Laboratories

Last year, thousands of lawyers, bankers, accountants, engineers, doctors and businessmen went back to college.

And not just for the football games.

We'd like to clear up what appears to be a misunderstanding. It is somewhat popular on campus to decry a business career over the country for a year's concentrated study leading to a master's degree. You get the idea.

We can't speak for Cliché, but we can for ourselves—Western Electric, the manufacturing and supply unit of the Bell System. 6 out of 10 college graduates who have joined us over the past 10 years, for example, have continued their higher education. How're these for openers:

W.E.'s Tuition Refund Plan lets employees pursue degrees while working for us. Over 6 thousand have attended schools in 41 states under this plan. We refund more than $1 million in tuition costs to employees a year.

To name another program: advanced engineering study, under the direction of Lehigh University, is conducted at our Engineering Research Center in Princeton, N. J. Selected employees are sent there from all over the country for a year's concentrated study leading to a master's degree.

You get the idea. We're for more learning in our business. After all, Western Electric doesn't make buggy whips. We make advanced communications equipment that every year becomes more sophisticated, and will even need even more sophisticated devices by the time your fifth reunion rolls around. The state of the art, never static, is where the action is.

At Western Electric, what's happening is the excitement and satisfaction of continued doing and learning. If this happens to appeal to you, no matter what degree you're aiming for, check us out. And good luck with the football games.
