Todes returns to lecture on success in technology  

By Steve Cebart  
Former Professor Samuel Todes will return to MIT to deliver a lecture entitled "Technology and the Ideology of Success" at the Center for Urban Studies. The lecture will be followed by a reception in the Student Center.

Other speakers will be Dr. Justin Keil, Curator of the Hart Nautical Museum, and Dr. Jon, the moderator of the program was to help those who make our society members of the scientific community understand the overall effects of their work on the world.

Due to an error, Dr. Todes, who is currently a post-doctoral fellow at Harvard University, will be lecturing on the social aspects of the technological way of thinking through an examination of the psychology and scientific thrust of the work.

For the technological-ideological individual, who cannot complete in a personal perception of the

Fellowship nominations due by Monday, Oct. 31

Undergraduate interested in applying for a postgraduate study at Harvard University may still come in as late as Feb. 1.

Announcements for the 1967-68 Winter Faculty and Staff

Foundations for the 1967-68 Winter Faculty and Staff are being circulated among the students and faculty. Materials will then hopefully be mailed out by November 1 for submission to Mr. Stoddard as the December 5, 1966 deadline.

Yacht racing symposium scheduled for Nov. 9th

A day-long symposium on the tactical and technical aspects of yacht racing will be held Wednesday, November 9, at MIT. The symposium, which is being sponsored by MIT's Department of Naval Architecture and Marine Engineering, will be held in the Kresge Auditorium, Little Theatre.

The morning session of the symposium, scheduled for 9:00 A.M., will be moderated by William A. Baker, Director of the Harriet Marine Laboratory, MIT. The afternoon session, scheduled for 1:30 P.M., will be moderated by John J. Carver, Professor of Naval Architecture.

"The admiral's view of the tactics and strategy of the yachtsmen," said Dr. Baker, "will be a key topic of the symposium." The symposium will be open to the public.

Sen. Morse assails foreign policy

By Jim Smith

Senator Wayne Morse (D-Ore.), before a Kreuger Forum of 1000 Monday night, expanded his disagreements with the President on foreign policy, and on the proper location of policy-making, with special reference to the Vietnam War. The Lecture Series Committee sponsored the lecture, which was followed by a reception in the Student Center.

"Foreign policy belongs to the people," was a statement prominent in the beginning and end of the Senator's remarks, which strayed greatly from, and elaborated upon, a prepared text.

Five major points

Basically, the Senator made these five points: the President Johnson has ignored the proven machinary of the United States, which working on an imposing machinery of his own, he held at bay; the President must take full responsibility for the actions. An extreme type of executive authority in the formation of policy, and working on a set of admitted and admited false premises, particularly, the President is relying on the North; he has not been an unwarranted "iron curtain of secrecy" and "the wall of silence" and the organization in fact achieved the opposite of its intentions.

The Tech

School Committee action

Watertown passes Wesner plan

The Watertown School Committee put its final seal of approval on a proposal for a new school in Watertown, which includes written examinations.

Approval of the plan requires the consent of the school committee and the school committee before approval of the plan could be obtained, were a ratifying system, widely advertising of positions to be filled, a national teachers' examination with only the best candidates with the highest scores to be selected and a ratifying system that positions above teachers' requirements require a master's degree.

Teachers' ratings will be based on 80% on the examinations and 20% on the superintendent's rating.

Vice President Spotlight

Operations and Personnel

Vice President Philip A. Stoddard, in charge of Operations and Personnel

"A continual evaluation and re-evaluation of ways to provide the most efficient and economical

services to the institute commences," said Dr. Philip A. Stoddard, MIT's Vice President in charge of Operations and Personnel. "Mr. Stoddard holds executive responsibility for all MIT plant, campus development, housing and dining facilities, personnel policies, and scientific and non-scientific personnel matters.

Major Changes and Construction

Activities relating to the physical plant are the two major categories. Operations includes such things as repairs and maintenance, construction, and general physical arrangements such as the structures built for Howard Johnson's Inauguration Oct. 7. Mr. Stoddard pointed out that "the administrative change, which may be a leader if in the New Republican Party was born, as well as some local business and professional men, between the ages of twenty and fifty, Dr. Saloma is president of this group, as well as co-founder of the Ripon Society."

Mr. Stoddard has been involved in the Ripon Society for many years, serving as the president of the society. The Ripon Society is a group of people who are interested in the political and social issues of the day.

By Carson Agnew

An organization which may soon be a major voice in Republican politics is growing in Cambridge, Massachusetts, "a small public research and policy organization that takes its name from the Wisconsin Ripon Republican Party, was born, as well as some local business and professional men, between the ages of twenty and fifty, Dr. Saloma is president of this group, as well as co-founder of the Ripon Society."

Mr. Stoddard has been involved in the Ripon Society for many years, serving as the president of the society. The Ripon Society is a group of people who are interested in the political and social issues of the day.

By John Corwin

"The United States," he explained, "is a country with a high degree of political and social stability. We have a system of checks and balances that prevent any one person or group from gaining too much power."

Mr. Stoddard pointed out that in order for a Republican to be successful, he must be able to work with other members of Congress.

Mr. Stoddard emphasized the importance of working with other members of Congress in order to achieve success.
