be a Hero . . .

or "How to practice your one-upmanship on industry". We do it all the time at LTV Aerospace Corporation — dreaming up big shiny things like a plane's plane or a missile's muscle. In fact, our Hero engineers have come up with some of the nation's superest Super Stars. The word is out that there are some great star gazer spots open now (some earthy ones, too). So whether you're a circles, waves or angles engineer, you, too, can be a Hero in such areas as aerodynamics, avionics and instrumentation, airframes design, systems analysis, reliability, dynamics, systems design, propulsion, stress analysis, industrial engineering, technical administration . . . and others.

Get the whole story. Ask your Placement Office, then see our representative when he visits your campus (he'll swell with pride if you ask, "how's your LTV bird"). Or write College Relations Office, LTV Aerospace Corporation, P.O. Box 5907, Dallas, Texas 75222. LTV is an equal opportunity employer.
