A better idea never came out of a crystal ball

At Ford Motor Company we’re always looking for better ideas. But not with a crystal ball. We do it with background and brain.

We do it by seeking answers for down-to-earth questions such as: Should a profitable central city dealership be relocated to a growing suburban location? What’s the sales potential for a new personal car?

And we do it by trying to solve problems that haven’t been faced till now. Problems such as: Is an electric car the answer to city traffic? How will people travel in the year 2000?

In short, our better ideas come from better people. And we take extra steps to get them. Ford Motor Company has a College Graduate Program which provides immediate opportunities for individual development. In our rotational assignment system graduates are assured broad training and constant visibility to management. Right now, new products, new marketing programs, new subsidiary operations here and abroad are creating new jobs. One could be yours.
