The Avant-Garde Scene

Daniel Pinkham will speak at the banquet of the MIT Combined Musical Clubs at 6:00 pm, February 16, 1967, in the Campus Room of Acknowled House. The banquet, an event for members of the MIT Concert Band, Glee Club, Concert Jazz Band, Symphony Orchestra, and Loge, is an attempt to allow the band in the country.

discs such as 'Hello Hello' and more this influence is seen in a jug band bag than any Eggplant that Ate Chicago' was and 'Wild about my Lovin.' 'The influences rock

Kweskin’s Band influences rock

(Continued from Page 10) by Kweskin’s group. ‘Truus in the Battle,’ ‘Finska Rannu,’ ‘My Gal,’ and ‘Wild about my Lovin.’ The Kweskin that also Chicago’ was more in a jug band bag than any other recent pop hit. But more and more this influence is seen in discs such as ‘Hello Hello’ and ‘Lovin You.’ And Kweskin’s is the last band in the country.

gave a lecture-recital of his latest works at the New England Conservatory of Music. Also started last month and continuing at 42 Berkeley in Boston is the local branch of Film Maker’s Cinematheque and the Boston Tea Party with experimental lighting and electronics by an MIT graduate.

With the establishment of the Cinematheque, Boston has become one of the best cities in the country for experimental film and the small colony of Undergound filmmakers is growing rapidly. Stop in Tuesday-Thursdays evenings, their programs usually feature the works of individual filmmakers who frequently are in attendance to discuss their work; January, Harry Smith and Gregory Markopolis made the trip to Boston. Of course, our own Film Society is very active and Stan Brakhage will be at the Institute sometime in April. Weekends the Cinematheque literally and figuratively sheds its skin to become the Tea Party. Boston’s first environmental light show and dance perhaps more accurately described as light show and crush.

Industrial Nucleonics, since 1951, has concentrated on developing on-line analytical measurement and control systems for the country’s basic raw materials processors. With over 98 percent of all systems ever built still in daily service — and providing the customer with tangible economic benefits through guaranteed results — AccuRay systems have become a standard of reliability and performance.

With a record of doubling in size every four years and increasing markets across the U.S., Canada, and Western Europe, I.N.’s field staff has become a most important element. If you are interested and qualified for one of the following positions, additional information and campus interview schedules may be obtained from the Placement Office.

SYSTEMS AND SALES ENGINEERING

BSEE, BSEE, BME, BSME, or in combination with MBA

Integrate AccuRay systems with customer processes; perform process research studies to determine potential quality improvements and substantial economic savings for the customer. Opportunities for advancement within the Systems Field or to move into Sales.

Each of these career positions offers rapid advancement and opportunity to broaden your technical knowledge plus liberal compensation, company automobile, expense account, permanent assignment, and full benefits program.

If our interview times are not convenient for you, send your resume in confidence to Mr. Philip J. Robinson, Assistant to the President, Industrial Nucleonics Corporation, 650 Beechmont Road, Columbus, Ohio 43220, An Equal Opportunity Employer.
