The class of 1970 will be concerned with numerous pressing problems. Field Day must be coordinated, effective feedback continuous, class unity strengthened, class rings ordered, and funds raised for our class. For any major effort, we must be united. Through good communications and efficient organization, we should accomplish this. I propose to set up an Executive Advisory Committee. This committee will consist of three classes. My responsibilities will cover several classes and are losing popularity. Frequent concerts have been too frequent and are becoming routine, losing popularity. The Junior exec comm a start on issues that will face me if I am elected as president. As a voting member of the Junior exec comm, I am aware of student opinion. Phillies remind us that the UAP "can't succeed when they are tried at a later time. When the candidates reply to the questions, "Why do you want to be UAP?" they must be careful to be truthful. I can't promise you more than similar experiments "haven't succeeded in the past," but your opponent quickly stated the success of the "innovator" bandwagon series as evidence that good ideas can fall at first only to be received after a later time. When the candidates reply to the questions, "Why do you want to be UAP?" they must be careful to be truthful. I can't promise you more than similar experiments "haven't succeeded in the past," but your opponent quickly stated the success of the "innovator" bandwagon series as evidence that good ideas can fall at first only to be received after a later time. When the candidates reply to the questions, "Why do you want to be UAP?" they must be careful to be truthful.
