Bob Horvitz wins UAP election

By Mark Robin

Bob Horvitz ’68 of Alpha Epsilon Pi from Storrs, Ill., was elected Undergraduate Association President for 1967-68 in the annual student government elections held yesterday.

Horvitz defeated two other candidates for the highest post in the undergraduate student government. Rick Karash ’68 of Sigma Chi from Boston, Mass., finished second, while George Phillies ’68 of Boston House, from Williamsburg, New York, was third.

Class officers

Also chosen in yesterday’s election were next year’s class officers. Elected were: Gary Garnon, Permanent President of the Class of 1967; Bob Condap, President of the Class of 1968; and Joe Banacloch, President of the Class of 1970.

Offices were elected for the International Student’s Council. David Khanian was elected president. Graduate representatives are Aid Debs and Orlando Ponsor, undergraduate representatives are Frederick Alban ’68 and Jose Brice ’69.

Announced yesterday by Garnon to the Permanent Executive Committee were Mike Daily, Barbara Boudreaux, Steve Douglas, Al Hayes, George Jones, Frank March, George Pfeil, Dave Sanders, Mike Telson, and Art Warrach.

Horvitz’s statement

Upon notification of his victory, Horvitz released the following statement to The Tech: “I am very happy to be elected and I promise to do my best to represent the student body. My specific goal for the year is to work on the issues on which my campaign was based, and I would like to thank everybody who voted for me.”

SDS votes cast in yesterday’s election as compared with last year’s record-breaking total of 2317. This year’s turnout was an average one and did not create any problems such as last year when additional ballots had to be printed up for every race except Class of 1906 offices.

Mayor Collins delivers lectures to Management students Thursday

Mayor John F. Collins presented a guest lecture for 15.059 (Public Policy and Management) Thursday afternoon. Earlier in the day, he delivered a special lecture for a seminar in government-business relations.
