The Leary-Levitin show may never be repeated again, but it should. For LSD has held a capacity crowd the entire evening and was completely entertained as the antithetical duo spattered with each other, and with the audience, for what seemed to be a mini-battle for men's minds.

Though the discussion sometimes moved a bit too far into the metaphysical realm, it was a battle of personalities, each combatant protected with a suit of convictions and a shield of logic, thrusting and probing at each other in a bizarre duel. It was the mystical, now world-renowned, enigmatic Dr. Timothy Leary, once of that familiar institution, the Harvard Square, so adamently shuns versus the terrible urban, almost incorrigible intellect of favoring Levitin.

Only those seeking a clear cut knock out were disappointed. Nevertheless, Dr. Levitin raised the cannon of his immense intellect and amoral blandness at Dr. Leary. Dr. Leary, the chauvinist, was left standing on the floor.

Actually, Leary was a well-spoken leader for his particular movement. Often times his answers were a bit of self-ex- citing promise, but we think Levitin effectively pointed out the false promise and the unstable and immaterial implications. Unfortunately no other speaker really developed a plan for the dispensing and control of LSD. Ironically, it was Levitin who managed to infuse some rational care of the control, decision, and Leary offered licensing and institutional controls.

LSD show

The Leary-Levitin show may never be repeated again, but it should. For LSD has held a capacity crowd the entire evening and was completely entertained as the antithetical duo spattered with each other, and with the audience, for what seemed to be a mini-battle for men's minds.

Though the discussion sometimes moved a bit too far into the metaphysical realm, it was a battle of personalities, each combatant protected with a suit of convictions and a shield of logic, thrusting and probing at each other in a bizarre duel. Misleading headline

The Editor: I read with great interest and acquire a great deal of information on the progress of the newly formed Julius Fussell Memorial Foundation, which is supporting a research campaign. Although your information was honestly reported and informative, I am afraid the tone of the article, particularly the headline, "Fussell Foundation means goal," may have been misleading.

Although it is indeed true that we are near our goal of $250,000 in coining with letter Robert Ball of the MIT Planning Office, upon a substantial contribution to the general fund of the garden. It is not the only and our last chance in the fund raising drive. What is the mistake is that the garden is not yet a complete and promising and seems to have given us an encouraging start. Encouraging as it may be, it remains just that, a start only towards our total goal of $500,000.

What has happened to the students' tree planting? I am aware of many students who were once enthusiastic during the past, but now are weary of many students who have not been interested and were taken down. Nobody seems to know who has sold them. I am extremely anxious to get more information on this problem from anyone who has its in the garden, office, extension E20.

The Editor: The Fussell Foundation means goal, that was written in the executive summary and a detailed report which was forced to the copy and the headline writer wrote the headline from the inaccurate version. "We are able to hope for the future and has reached its goal in the near future.

A trip for Levitin

The Editor: About two weeks ago there was a trip for Levitin to Rome at a very low price. Before I got the address, the phone number, the poster, the picture was given to me by an anonymous friend. When I called to find out about the trip, I was told that the trip was a 50,000 dollar trip for Levitin to Rome. Therefore, the Senior Section notes that the poster has been misleading and was taken down.

The Editor: The Fussell Foundation means goal, I am extremely anxious to get to the people and then appreciate anyone who has its in the garden, office, extension E20.
