"The Lower Depths' at Kresge

By Stella R. Fisher

Drama...

Walking out of Kresge's, the theater after having seen "The Lower Depths," I felt a chill run down my spine, as if my very imagination were about to melt, or fall into a pool of tears. The sheer act of seeing social problems played out in front of me nearly made me cry. Yet, I am not saying that I would ever experience the effects of such a play. The very thought is horrifying.

Perhaps the most important character in the play is the main character, Joseph, played by Bob Newhart. Joseph is a man who has seen the worst of society. He has been in and out of prison, and has been treated unfairly by the law. His life has been nothing but one of struggle and hardship.

The play is a critical commentary on the state of society in the time period in which it was written. The characters, both good and bad, are all representations of the people of society as a whole.

However, the play is not all about the negative aspects of society. There are also moments of hope and redemption. For instance, Joseph's friendship with his fellow inmate, played by Bob Newhart, shows that even in the darkest of times, there can be light.

"The Lower Depths" is a powerful play that challenges the audience to think about the state of society and the people who inhabit it. It is a must-see for anyone who wants to gain a better understanding of the world around them.

Back to the 30's

A Musical Happening of the 30's Songs and dances directed by Lewis Strong Jr.
