In addition to literature and posters of the psychedelic scene, the shop also provides incense, pipes, and related items under the rubric of Cosmic Happenings.

In short, the place provides a selection of posters, buttons, and general merchandise which could make one believe that one has stepped entirely off the earth and into a dream world.

A photographer will be in the Student Center today to take photographs of pictures beginning Monday. Any person who wishes his appointment may appear in the Student Center any time within two weeks of his expected visit. A student's personal appointment is to be $1.00 for use with his fee.

What can be found in "PSYCLOPS"? Posters range from modern advertising to other forms of art; buttons from self-righteous to suggestive. Take a look someday.
