The AEB is a regulating body.

At the present time, the coordinating function of the Activities Council is undergoing a steady refinement. A change necessitated by the marked increase in interest and student participation in the present year is a likely improvement. Another change is to be seen in the activities program.

The Tech and Tech Engineering News. The remaining six positions are held by organizations of smaller scale, and it is through these six positions that the majority number of groups express their opinions.

Do you think a bright young engineer should spend his most imaginative years on the same assignment?

Neither do we.

At Hughes, you might work on spacecraft, communications satellites and/or tactical missiles during your first two years. All you need is an EE, ME or Physics degree and talent.

Some of the current openings at Hughes:
