Structural changes sought

A report just issued by the Alumni Association has called for changes in the makeup of the association and its goals. The report, by Long-range Planning Founding Father of the Alumni Association, also includes changes within and the organization of the association.

Corporations changes

The composition of the alumni association will be changed from most of the alumni to a group of professional fund raisers, and representation will be changed to accommodate the needs of its members.

The By-laws officially, the Long-range Planning Committee recommends to the By-laws of the Alumni Association "to confer on the Board of Directors of the Alumni Association all the responsibilities now vested in the Executive Committee and the Executive Committee of the Alumni Association". The report also states that the Alumni Council, which is nominally the governing body of the Association, is "too small" and serves only a few non-alumni for membership.

The report recommends that the Alumni Council, which is nominally the governing body of the Association, is "too small" and serves only a few non-alumni for membership.

As a financial need of the Association becomes more urgent, it is no longer possible to accommodate the needs of the Association. The report recommends changes in several other committees and the establishment of several others.

The report recommends that the Alumni Day Committee be reconstituted as a nine-man group, having three-year terms, and that the Trustees of the Alumni Association be added to the Alumni Committee after changing its name to the Alumni Committees for the Awards Committee and the Committee on Alumni Hospitality Committee. The report also recommends that the establishment of a Committee on Alumni Hospitality Committee be added to the Alumni Association after changing its name to the Alumni Committees for the Awards Committee and the Committee on Alumni Hospitality Committee.
