Hayes harasses Avatar

(Continued from Page 1)

Police are around. In addition, it is reported that Dean Wadeigh may be asked to rule on the status of vendors on Institute property.

Hayes's harassment
The reason for the "harassment" is that Avatar has been chosen as the focal point for May- or Hayes's crackdown on the hip- hop population in the area. When the paper's editors met with OEG Manager DeGuglielmo on Saturday, Nov. 25, to find out why their previous applications for permits to sell the paper had been rejected, they were told that Avatar had been classified as a commodity by the Manager's Office. According to Cambridge law, the city manager has the authority to dis- allow licenses for the distribution of such commodities without a hearing.

The court decision announced Wednesday was that Avatar was, in fact, not a commodity. Thus, the vendors were on the streets again with issue no. 14 Wednes-

day, although the Cambridge po-

lice didn't seem to know what had happened.

Obscenely charged theft
The paper is still being proce-

sured for obscenity in the courts. This case is still being fought.
