Seykota and Jivisild are underdogs in UAP campaign

(Continued from Page 3)

Spring Weekend, etc.) may or may not learn responsibility because he is left too much on his own. Seykota wants these heads to be required to report to Institute and the weekly. There is too little feedback on projects, he says. He would also like to see formal reports presented to Institute by the sub-committees chairmen. He thinks that with the reports of the project chairmen and sub-committee heads, the student leaders will learn about people who are doing good work within the various groups. More students would gain visibility in this way, Alex Saykota says that at the present time, there is no adequate mechanism for the average student to make his ideas and opinions known.

Marki Jivisild

Another student who is trying to make ideas known is Mark Jivisild, a junior in the Department of Architecture. She has said, "I am running to win, but I don't think I have a real chance of winning."

In order to win, however, Miss Jivisild would have to overcome the "cool stigma" some might attach to any woman politician: A female running for office must be either radical or incompetent. Before she has a chance to get a significant number of votes, Miss Jivisild must first establish that she is competent, and then she must convince students that she is more competent than the other candidates.

In her campaign, Miss Jivisild is stressing the improvements she believes should be made in the present insignificant situation of the average student. Student policies are too concerned with having a strongly built-up hierarchy meetings now, she says, does not feel in a position to interrupt discussions among the Institute members "sitting around the table in their swivel chairs."

Miss Jivisild also advocates a wiser use of Flowerboard's power, "the power of the purse." She believes that the UAP should determine which activities are more important than others. At present, the UAP must prepare most of its budget early in its term, before he has much time to evaluate alternative possibilities for expenditures. In Flowerboard were

Kivisild campaign for reallocation of Finance Board's activities funds

the believe that anyone who wants to be on an Institute sub-committee should be permitted to join. The current election procedure discourages people. But she feels that the UAP must make the functions of each sub-committee and other activities known to the student. She has said that "I think they should be held in the common meeting room." The average student who attends meetings now, she says, does not feel in a position to interrupt discussions among the Institute members "sitting around the table in their swivel chairs."

MANAGEMENT INTERNS . . . PERSONNEL SPECIALISTS

"Screwdriver" is now fresh from

Seykota once the biweekly newsletter of the freshman class, added a new feature in its February 13 issue, "Screwdriver." A new column, will provide "in forum for the reasoned opinions of anyone with the talent and gumption to write them down, sign his name, and send them to us."

"Screwdriver" invites comments from the entire MIT community addressed to Bob Ehrlich, 49 Memorial Dr., Cambridge.

Terry Turner (above) of San Jose, Calif., is a new member of the Freshmen Class of 1972.

CAREER OPPORTUNITIES

For graduates

at all degree levels

NIH

The world's largest center for conquest of disease and improvement of human health

NIH

The National Institutes of Health—NIH—is the principal research arm of the U.S. Public Health Service, and conducts many of the most advanced programs in medical science today. These programs require specialists in a wide range of disciplines. Examples: Right now NIH has openings in the following areas: CHEMISTS . . . BIOLOGISTS . . . NURSES . . . MEDICAL TECHNOLOGISTS . . . SOCIAL WORKERS . . . LIBRARIANS . . . ENGINEERS . . . COMPUTER PROGRAMMERS . . . MATHEMATICIANS . . . STATISTICIANS . . . SYSTEMS ANALYSTS . . . MANAGEMENT INTERNS . . . PERSONNEL SPECIALISTS . . . ACCOUNTANTS . . . INFORMATION SPECIALISTS . . . MANAGEMENT ANALYSTS . . . CONTRACT SPECIALISTS

These are permanent positions that offer high professional challenge and the benefits of career Federal employment. Starting salaries are attractive and opportunity for advancement is excellent.

An NIH representative will be visiting your campus soon to discuss these positions with interested students. We urge you to get further information about a career with NIH from the Placement Office, or by contacting
