Kennedy to work behind scenes in support of Senator McCarthy

Continued from page 4

Kennedy would eventually decline to do. In any case Kennedy will now probably back McCarthy with the feeling that together they may be able to stop Johnson. Since Kennedy has great standing among supporters of the primaries and professionals, he may hope for a shift to him at the convention, himself playing the role of convention broker. The location of the gathering is a unique election period which calls for courageous action. So far McCarthy, not Kennedy, has taken such action.

To Wisconsin

This last month has made each one of us pause and reflect on our own positions and actions. As for me, I have become a little tired of my aggravation every time I read the morning papers and my not doing anything about it. Because of a very fortunate opportunity presented to me, I am going to begin to travel with the McCarthy party in the primaries, starting in Wisconsin and hoping fully going all the way through to California.

If this year may be it will be a unique job as a staff person. Because of this activity, the frequency of this column may be limited, though I hope to be able to send the rest of the primaries and McCarthy's campaign.
