Stop reading The Way They Did
100 Years Ago

Last year 40% people read the
way you're reading right now.

Read by word. About 300
of 5,0 words a minute.

And 50 years ago, this kind of
reading didn't cause any
problems. You could keep up
with what was happening pretty
well.

But today, our knowledge is
expanding in fact that people
who want to keep ahead are ac-
ually falling behind. There's
simply too much to read. Too
much homework. Too many
books. Too many reports and
notions.

What's the solution? Learn
how to read faster and better.

You can do it. Too. So far over
20,000 other people have done
it. People with different
education, students, businessmen, housewives.

These people have all taken
a course developed by Evelyn
Wood, a prominent educator.
All of them have at least
triped their reading speed with
usual or better comprehension.
Most have increased it even
more. Some have increased it in
even more.

Think for a moment what that
means.

All of them—even the slowest
—can now read an average
novel in less than two hours.
They can read this ad in 15
seconds.

They don't skimp or skimp either.
They read every single word.
How do they see material. In-
stead, they use materials to
read, their materials they're
reading determine how fast they
read.

And—mark this well—they
automatically understand and
remember more than when they read
the way you do. They're right. They re-
member more. They enjoy more.

You can do the same thing—even
if you're a relatively slow
reader now. In fact, if you don't
at least triple your reading
ability, the course won't cost you
a thing.

This is the same course Presi-
dent Kennedy had his Chief
Chiefs of Staff take. The same
same senators and Congressmen
have taken.

It's eight weeks long, 2½ hours
a week, with classes held regu-
larly in Boston and suburbs.

Shouldn't you find out more
about it? You can, simply by
enrolling in a free one-hour intro-
duction.

We'll show you a film. Ex-
plain the course more fully. An-
swer any questions you might
have.

You'll be under no pressure to
enroll. If you don't want to, fine.
But go, it could change your
life.
