Professor Miller to head Course XVI

Professor Rene Hanover Miller has been named the Head of the Department of Aeronautics and Astronautics to succeed Professor Raymond L. Splinginghoff, who will become Dean of the School of Engineering November 1. Professor Miller's specialty is aeronautics and vertical flight vehicles, and he has directed a program of research for the Department of Transportation which endeavored to improve mobility in heavily congested urban areas by introducing new concepts in air transportation. The results of this research have appeared in numerous published articles.

A veteran of years of industrial practice, Professor Miller has held high positions with the Glenn L. Martin Co., McDonnell Aircraft Corporation and Kaman Aircraft Corporation. While Vace President of Engineering at Kaman, he was responsible for completing the development of the HOX-1 helicopter and initiated work on a number of new projects, including the first remotely controlled drone helicopter, a helicopter autogiro and a retorchariot for aerial delivery. While with McDonnell, he worked on a variety of projects, among them the development of a ramjet powered drone helicopter.

While at MIT, Professor Miller has taught courses in air transportation and flight vehicle design.

College World

Princeton University should admit coeds, 1000 of them, according to a study conducted for the University's board of trustees. The report stated that failures to become co-educational would mean that "within a decade, if not sooner, Princeton's competitive position for students, for faculty, and for financial support, would be less strong than it is now. The time, then, is crucial to Princeton's future." Meanwhile, several other all-male institutions have announced plans to admit coeds.

TWA's Group Therapy

Free time and far off places. Going alone or with favorite people. Being open and doing your thing. Strolling around Central Park, worshipping sun, surf and Big Sur...the total sounds of the Fillmore, East and West...friends, old and new...Hare Krishna from coast to coast...laughing, learning, caring.

You are eligible for low cost, quality life insurance. In apparent agreement with Lehigh is West Coast draft resister and activist Dave Harris. At a meeting of the National Student Association Congress, Harris was asked by a young lady in the audience what women could do to protest the draft. "Well," Harris answered, "you can refuse to sleep with any man who carries a draft card." In apparent agreement with Lehigh is West Coast draft resister and activist Dave Harris.
