When he does, he tends to take care of the people in the Cambridge area. The meeting, which was held in the Mezzanine Game Lounge of the Student Center, was for the purpose of exposing MIT students to the plight of the Cambridge citizen. A spokesman for the party mentioned that several hundred leaflets had been passed out. "After distributing our leaflets in a neighborhood," he said, "we would talk to the people. Almost everyone we talked to was fed up with rent increases." The drive includes an attempt to get signatures on a petition to force the City Council to pass rent control legislation. If 8000 residents sign it, it goes to the Council. If they fail to pass it, it goes within a month to a special election in which the entire city votes. Students from Boston University and lawyers in the area are working on the wording of the decree.

Rosa College

Specifically, the bill calls for most to be restored to the amount paid January 1, 1968. Under rent control, the only way a landlord could raise rent is if he makes substantial improvements in his property. Hand in hand with this effort, the Peace and Freedom party is running Mike Schwartz, a student at Harvard, for State Representative from Cambridge District Two. Their platform includes proposals to aid the war in Vietnam, aid the the Black Liberation movement, and permanent opposition to the Democratic and Republican parties.

One of the spokesman for the party, a student at Harvard, said that the university plays a major role in the rent crisis. They own a great number of the buildings that are setting at what many consider inflated prices. He felt that the university should be able to house all their students on campus, so as not to create the supply-and-demand problem that is Gentleman College rents out of sight. He also said that the schools should take more interest in community affairs. He cited as an example the fact that MIT is financing 250 units of low-cost housing in the North Cambridge area.

U moc contest will be held week of Nov. 19

Alpha Phi Omega has announced its annual Ugly Man on Campus contest will be held this year from November 18-22. In the UMO contest, four or five student campaign to try to get the MIT community to vote for them as the ugliest person on campus. Any person may win as often as he wishes — each vote costs one cent. All proceeds from the voting will go to charity, namely the American Cancer Society. The contest is whose name the most money is donated will receive a new one year, such as a night out in Boston, and the group which sponsors his candidacy is awarded the UMOC trophy to hold until the next year.

The UMO contest started over a decade ago and ran for five years. Two years ago it was revived, collecting over 3400 for the American Cancer Society. Last year the total rose to over 3700.

Students interested in participating in the contest and being groups and activities interested in sponsoring candidates should contact the APO office, S3781, for further information as soon as possible.

Blacks are victims of group paranoia

which told blacks the necessity of a black community which succeeds in a world wide community which succeeds in a world of whites. Stating who they were and what they felt, he recounted time after time how he spent in Haight-Ashbury.

Of years ago it was revived, collecting over 3400 for the American Cancer Society. The negative feelings projected to them are misconceptions stemming from ignorance. Furthermore, he noted that blacks, whites and reds will form one group if present social conditions continue.

The last issue discussed was the Hippie movement. Dr. Wallerstein of San Francisco discussed in brief the world wide community which succeeded the Beatniks. Stating who they were and what they felt, he recounted time he spent in Haight-Ashbury.

It's not often an engineer gets to design a company.

The engineer who wants to keep working on an advanced degree can do it right here. The engineer who wants to keep working on an advanced degree can do it right here. And the projects: they range from deep sea to the ocean floor military and commercial aircraft, V/STOL; launch vehicles; extra vehicular activity research and development; high mobility ground vehicles; missile systems; computer and management services.

No question about it: the engineers at LTV Aerospace are taking care of themselves. An LTV Aerospace representative will tell you how to get in on it.

CAMPUS INTERVIEWS FRIDAY, VOL. 1

Schedule an appointment or write: J. L. COOK,atheaffer Office, LTV Aerospace Corporation, P. O. Box 5607, Dallas, Texas 75222. An equal opportunity employer.
