Tech runners take third place as Harvard dominates GBC's

The powerful Harvard team, led by a first from Dave Pettetti, dominated the field Tuesday to capture the Greater Boston Intercollegiate Cross Country Championships at Franklin Park. Placing six runners in the top ten, the Crimson defeated Northeastern and MIT by scores of 30-1 and 30-0, respectively. Pettetti led his team over the 4.7 mile course with a time of 22:17. The rest of Harvard's points were scored by runners in second, third, fifth, and sixth places.

Larry Petto '70 was the first of Tech's runners to score, with an eighth in 23:23. Close behind was co-captain Jim VanStadlen '69, with an eleventh in 23:35. Stan Konow '69 was 24th, followed by our forth and fifth men, John Owens '70 and Geoff Hallack '69. Co-captain Ben Willo '70 did not run in this meet due to an illness which has made himo solo for a week of practice. However, he did win the Willos triangular and is expected to compete in the Easterns today.

"FIGHT FOR CLEAN THEMES!"

" had mistakes. Even fingerprints disappear from the special surface. An ordinary pencil eraser lets you write without a trace. Are you going to stand in the way of cleanliness?"

By George Nowenfield

"Ski Instructors

Work and positions available for aliers to instruct high school boys and girls. Prior instruction experience not required. Excellent ski facilities. Write or call:"

The conditions on the course definitely left much to be desired. The course is public and is not kept up especially this late in the season. Team and individual scores did show marked improvement over last week, partly because the course was much shorter.

Twenty-three teams entered a completed course and could compete for the 

Talk with Newport News On-Campus Career Consultant about engineering openings at world's largest shipbuilding company—where your future is as big as today's brand new ocean.

Right now we're in communications, military command and control, air traffic control, transportation, medical information, education, urban planning. We have openings for systems engineers, electronic engineers, systems analysts, mathematicians.

The name of our company is MITRE. We're in the business of designing, developing, verifying large computer-based systems for the Government. Under both civil and defense contracts.

IMMEDIATE ENGINEERING CAREER OPENINGS

Mechanical Engineers
Electrical Engineers
Nuclear Engineers
Industrial Engineers
Systems Analysts
Naval Architects
Radar Engineers
Metallurgical Engineers
