Gregory applauds involvement of youth in politics and morals

By Gary Bjork

Dick Gregory, in a speech at Boston University's Hayden Hall Thursday night, appealed to the youth of America to provide the U.S. with a "soundly back." He noted that today's young people are the most exposed in the history of the nation. Gregory questioned the general moral atmosphere of the country. John F. Kennedy and Martin Luther King were martyred by their violent deaths, while the shootings of Malcolm X. and George Lincoln Rockwell recently caused a sigh of relief or an apathetic stare of the shoulders. The question this country faces, according to Gregory, is whether or not we are a people opposed to murder. He maintained that political power is actually wielded by large corporate concerns that stand to profit from the war, and that bearing of these crooked snakes, such as Dow Chemical, would obtain more visible results for the peace movement.

But no white man, said Gregory, could justify the demand for non-violence for the Negro in view of the violence already perpetrated by their own system. The battle is no longer one of color, black and white are now stripped. Gregory held that the black man's problem is no longer his empty stomach, but his hungry mind.

M it 1701.

The SBCF released on July 1 the result of a survey of Cambridge's welfare (over 65) which showed that neo-dictions and poor for much more than they can afford. On two-thirds of the 261 people interviewed at least 1550 per year. It is said that about 57% of those receive more than one-half income for rent and heat. The SBCF found that only 316 of the people interviewed are receiving aid from the Department of Welfare and that practically all of them are receiving their home. Of the elderly, 646 were their homes. In most startling information published, the SBCF of the total number of those aged less than $1500 per year. It was surveyed, 64% rent their home. Of the students, 75% of the total number of those renting their home. Of the elderly, 646 were renting their homes. The SBCF also found that only 316 of the people interviewed are receiving aid from the Department of Welfare and that practically all of them are receiving their home.
