Letters to The Tech

Disgruntled

Dear Dr. Wiesner:

In your statement to the MIT community on Monday, Nov. 19, you mentioned the resistance group at MIT you referred to and how it was regulating a mode of conduct acceptable to the Institute.

You are, of course, quite right. I would like to know what the administration considered acceptable. After the resistance group was moved to the 4th floor of the Student Center, the following are some of the things that happened that I, and many students, do not consider acceptable.

1) Sexual intercourse at nightime in front of the TCA office on the fourth floor.

2) Human excrement left on the floor of the Small Activities Office at 6:00 AM. (Jan. 23) Giving the sulfuric acid to be cleaned up by a Physical Plant.

3) A "stained" ladies room was left in an intolerable condition.

4) Ugly and suggestive posters at all walls which are "acceptable to the Student Center.

How many of the activities came up to the 4th floor and floor and how should it be handled. I am over 11 years at MIT so I do not know what the administration considered acceptable. I can well consider those things "acceptable."

Chess World

Either 19, PK84 or 19, PQ4 would have been an improvement for Black, who plays too passively. When Black finally breaks in on K55, it is too late. Black shorten the struggle by yielding in White's major pieces, obviously overlooking the "whip" to 26. PQ4: 3) A "stained" ladies room was left in an intolerable condition.

4) Ugly and suggestive posters at all walls which are "acceptable to the Student Center.
