Girls snowed by Yale

(continued from page 1)

I hope that that would be very rare. He also stressed that it is unlikely the scientist would be right in his decision to quit.

Military-industrial complex

The discussion then moved to the question of the role of the military-industrial complex. Although many students hailed the Hanoi for the world situation on it, it was agreed that we were not really all that profitable for American industry. A student brought up the fact that the complex cannot be treated as monolithic; it is made up of individual colleges with their own curricula.

Holiday Health cure for Typewriters

Leave your typewriter with us before you go on vacation. We'll clean and repair it and have it ready, all bright-eyed and bushy-tailed, when you get back.

WHAT DO WE ACTUALLY DO
WHEN WE CLEAN YOUR MACHINE?

On manual typewriters, both portable and office, we start by removing all rubber parts, such as platen, feed rolls, type head, etc. We remove all cover plates so that the typewriter mechanism is completely exposed.

On electric portables we remove the motor, switch and wipers, belts and power roll in addition to the above.

Then the machine is given an ordinary chemical immersion and an oil bath before being assembled and adjusted.

Finally, we reassemble it, going through the normal sequence of adjustments to lubricate the parts that require heavy lubrication. Now your machine is really clean.

Repairs are made by qualified technicians with more than 20 years experience. Prices are competitive – in fact, lower than most. Bring your typewriter to any of our 4 stores.

Harvard Square, M.I.T. Student Center, Business School and Children's Medical Center, Boston.

Cleaning
