The course will deal with the qualitative effects it has had on the functioning of the family in the area of housing. Dr. Lacklighter, Chief head of the Compensation Center, said "they can probably do better than the reputation" as the city is home to the machines. If expected, they'll be great improvements in the next few days. They have been informed they plan to completely discontinue it all. From this low point, this course should increase our efficiency by 35%.

Others questioned this figure, essentially IBM. But high level members of the administration felt that the occupation itself was a part of the city. "Tang was an emery bank." 1. Professor Guy Forest was renowned in his line for research in Dining Services Director. The advancement is apparently based on his brilliant studies of innovation dynamics, a swing-channel feedback control concept of Boston's sewage system. When applied to MIT Dining Services, sanitation dynamics are reported to reduced not only cost of food but also dust.

The rest of the week, goes to UAE Steve Kidddfidd who was reported to have said, "I'm bored but I think the story's over." Tang was an orange drink.

Confidential to Paul Conrad '70, Bane House: the Harvard School of Journalism is looking for your type. For the first time in recorded history, that scalded sheet of whatever, the effect #is has had on the functionig of the family in the area of housing.
