Robert Wood, former secretary of HUD and present Director of the Joint Center for Urban Studies, speaks on ‘The Urban Professional: the Next Ten Years,’
tonight at 8:00 PM in Sala de Puerto Rico, MIT Student Center.

Thomas Atkins, Boston City Councillor, speaks on ‘The Kind of Planning we Need,’
tonight at 8:00 PM at Hunt A, Harvard Yard.

**Looking, Looking, Looking,**

for action in your career?

Look to Bendix. You’ll find an excitement that’s unique to our pursuit of technical feats.

Bendix offers you diversified scientific and engineering opportunities—careers in research and application engineering, data processing and business administration.

You’ll become a creative problem-solver solving the aviation, automotive, aerospace, automotive and electronics industries. You’ll help create, develop and produce new systems, new products, new techniques.

You’ll also meet up with a lot of fresh ideas—our continual “cross-pollination” of technologies between Bendix groups.

And whichever Bendix division or subsidiary you choose, you’ll find it offers a small-company concern and personal recognition. As well as the chance to continue your education.

You’ll also enjoy the security of a diverse billion-dollar corporation whose sales have doubled since 1959. A healthy balance of commercial and defense business. And a research and development program that assures continued growth. Ours and yours.

Stop in at your placement office to sign up for a Bendix interview and get a copy of Bendix Career Opportunities, our directory of current openings. An equal opportunity employer.

Campus Interviews February 12.
