Youth fare debated
Congress may act
(Continued from page 6)
of the reduced fare. The National Student
Association has stated, "In view of the educational, social, economic,
and cultural benefits, the fare should
not be cancelled." Campus Americans
for Democratic Action and the National Student Marketing Corpora-
tion have joined in this viewpoint.
On Capitol Hill, Senator Charles
Percy and several members of the
House have introduced special mea-
sures authorizing the youth fare. The
bills were introduced as amendments to
the Federal Aviation Act of 1958.
Any CAB decision will probably
last a court challenge.

What's so special about Beechwood Ageing?

We must be bragging too much about
Beechwood Ageing. Because we're starting to get some
flak about it. Like, "Beechwood, Beechwood...big deal." And "If
Beechwood Ageing is so hot, why don't you tell every-
body what it is?"

So we will.
First, it isn't big wooden
casks that we age Budweiser in.
But it is a layer of thin
wood strips from the beach
sand the sea used to lay down
in a dense lattice on the
bottom of our glass-lined
stainless steel lagering
Tanks. This is where we
let Budweiser ferment a second time.
(Most brewers quit after one ferma-
tion. We don't.)

These Beechwood strips offer extra
surface area for tiny yeast particles
to cling to, helping clarify the
beer. And since these
strips are also porous, they
help absorb beer's natural
"edge," giving Budweiser its
finished taste. Or in other
words, "a taste, a smooth-
ess and a drinkability you
will find in no other beer
at any price."

Yes, drinkability. That's
what's so special about
Beechwood Ageing.
But you know that.

Budweiser, the King of Beers.
(But you know that.)
