**Issues of the day will be the subject of forum at Baker**

Baker House will sponsor a campus forum tomorrow at 8pm which will deal with such issues as the SACC demands, ROTC, war-related research, and academic freedom.

Mark Kastner '70, Baker House Vice-President, said that the forum will invite participation from all parts of the MIT community. Anyone who wishes to attend should sign the list in building 10.

**Lecture postponed; held 'inappropriate'**

The Lecture Series Committee has postponed a lecture scheduled for tonight on the subject of "larger issues" confronting the MIT community.

Steve Leib '70 explained that the lecture by W. R. Brown "saw the noted elevator expert, would be "both insipid and distracting" in light of the present situation on campus. Leib is chairman of the Lecture Series Committee.

Leib further stated that the lecturer agrees with the decision to postpone the lecture. All other concerns centered felt that the lecture would be more appropriate at a later date.

Brown is to speek on elevator technology in the Mezzanine Lounge of the Student Center at 8pm tonight. A new date for the lecture has not yet been set.

**We're putting our money where it does you the most good.**

TWA is giving its people a million dollar bonus if they can make you happier than any other airline.

And your students are going to help make sure we put the money in the right pockets. When you fly TWA, you'll get a ballot. Write in the names of the TWA people who gave you super service.

Drop your ballot into any of the bonus boxes you'll find at all of our terminals.

And we'll see that those people get rewarded with some of that money.

Now, for a change, you can have a chance to grade others on their work.

**TWA**

Our people make you happy. We make them happy.
