SACC plans Corporation protest

by Joseph Kashi

SACC will picket the annual Corporation meeting today demanding that MIT and all MIRV research immediately and publicly all lab commitments and the corporation's expiration dates. The Corporation which President Johnson will address on the state of MIT, is expected to discuss suitability of secret war-related research at MIT. In addition to picketing the meeting and the branch which is to precede it, SACC will attempt to gain permission to enter the meeting.

Eytan Singer, associate professor of Biology, indicated that SACC will not pursue the severance of the labs from the MIT corporation and will not be self-defeating. Presumably, the labs would then be able to work on defense research with restrictions on the scope of their work; it is now possible under MIT’s control.

Issues Postponed

The leaflet which SACC will distribute at heavily frequented locations today will present either demands to the Corporation: the retaining of all lab workers displaced by the conversion of MIRV work, and the guarantee of one job for workers displaced by MIRV, and also those used as a political weapon against MIT. This will precede an attempt to build massive support for their stand against MIRV and will also be used as a political weapon against MIT.

Today’s action against the Corporation is seen as an intermediate action to test SACC’s strength by its leaders. Indications are that SACC intends to become more militant this year in its fight against secret defense-oriented research at MIT. MIRV is viewed as a symbolic issue in this context.

Conversion Conference

SACC plans to sponsor a conference on the conversion of war-related labs and industries on December 4th, 5th, and 6th. Primary issues to be discussed include Industrial conversion, immigration problems, and defense research problems; the substitution of “white” labs for “black” labs; and the present role of DOD at MIT. Present DOD work at MIT, and the procurement of funds to support the labs at their present level if DOD funds are cut.

SACC protests on October 15

SACC urged support of the October 15 moratorium on a personal boycott of MIT. However, SACC does not devote substantial efforts or resources to the current attempt to cancel all MIT classes on that day. Instead, SACC plans to sponsor a conversion rally to address the crowd on current SACC issues.
