Faculty to consider new student speaking rights

(Continued from page 3)

I

tions were raised by several who said that the motion did not conform to parliamentary pro-
cedure. A standing vote to table the motion failed, but the topic will be added to the agenda of the
next faculty meeting.

Several faculty members asked why the special meeting on Dec. 10 could not be used as an open forum to discuss the
issues before the Institute, but Provost Jerome Weisner rose and stated that he believed that the issues facing the Institute were
broader than those of the Pounds Panel report. Thus, a separate meeting should be held in which these issues could be
discussed without being con-
formed with the Pounds Panel report. Professor Anthony French of Physics asked for
steps toward open Institute meetings instead of faculty
meetings, while Professor Boris

Magannik, Head of the Biology
Department, suggested that the
rules be permanently amended to
allow students to speak at all
faculty meetings. It was further
suggested that those speaking
privileges conform to rules set
up by the President and the
Chairman of the faculty.

Professor David Bowin of Biology sought faculty support for a petition asking the Justice
Department to allow a promi-
nent Belgian Communist to enter the U.S. to take part in the
SACC conversion conference planned for early December. Dr.
Ernest Meadell, Editor-in-chief of La Gauche was scheduled to appear at the conference, but
Justice Department officials re-
fused to allow him to get an entry visa, ostensibly because he did not conform to restrictions
placed upon him during his last
visit to the U.S.

Announcements.

* Real and theatrical participants in the drama of J. Robert
Oppenheimer will discuss the issue of his career at 2:30 pm, today, in
the Sala de Pasillo Riso of the Student Center. Students and faculty
will have the chance to meet with members of the cast of "In the
Matter of J. Robert Oppenheimer," now playing at the Colonial
Theater in Boston. Professor Zacharias and several other members
of the Department of Physics who were associates with
Oppenheimer in the development of the atomic bomb will attend the meeting.

* The nominations committee of the Graduate Council will meet on
Monday, December 1 at 5:00 pm in the Moduly Charles Pub, 120
Walker Memoral, to interview students interested in serving on the
following committees: 1) Harvard Cooperative Society, stockholder (1)
and Directors (2); 2) Committee on Student Environment; and 3)
Committee on Educational Policy.

* Tangent, the MIT literary magazine, urgently requests submissions
from all those whose numbers lead them to see their work in print.

To a Gypsy Moth...jumping isn't only a
way to live...but a helluva way to die, too!
