Ruggers beat Boston, Aspe makes all-stars

By Ray Kwasnick

The MIT rugby club ended their most successful season in many years with a come-from-behind 6-5 victory over the Boston Techmen. This win upped their season's record to 7-1. Also on Sunday, the second team lost to the Boston Greyhounds 5-3 and their season stands at 3-3. The third team was shutout 6-0 giving them a 2-6 record.

As a further honor, forward Juris Ape was named to the Boston area all-star team. The all-stars will play an exhibition game against the Boston Rugby Football Club's first team in Newport, Rhode Island on December 6.

The last game of the season was played on sub-freezing cold and muddy field, but the Tech backs got to handle the ball more than they had all year and did a good job of it. However, the slippery field made cuts difficult and the backs were never able to break loose for a try although they consistently gained ground.

The first score of the game was made on a try through with a 3-0 lead. Tech won a scrum and as the ball came out the back, lock John Pickering picked up the ball and raced down the sideline for 25 yards before passing to Pedro Taboga who carried the ball to the top of his 200-yard freestyle win, but it also broke yet another record in each of three positions, sighting shots and ten shots for an individual, scores in the mid and low 280's are of All-American caliber and for an individual, scores in the mid and low 280's are of All-American caliber.

Although riflery is not a fast, exciting sport, visitors are always welcome at the matches. Riflery is a competition in which a high degree of muscle control is required for high degree of muscle control is required for high degree of muscle control is required for high degree of muscle control is required for high degree of muscle control is required for high degree of muscle control is required for high degree of muscle control is required for right hand.
