Harvard, OBU sign pact

(Continued from page 1)

"what you do is your own thing."

AC action

A discussion among members of HRAAS, NAC and Weathermen ended with a decision to form an ad hoc "Support OBU" committee to prepare a leaflet for distribution to the university." Support OBU," a coalition of Black groups including HRAAS, would now be negotiating with the University.

For its part, HRAAS has repeatedly charged the University with acting in bad faith and "swindling." HRSDS has independently made similar charges.

Only students on three special panels will be allowed to speak at Wednesday's special faculty meeting. The students will be members of the Pounds Panel, Prof. Sheldon's Sl ad hoc Committee on Special LS organizations, and the coordinating committee of the Faculty Advisory Group. There will be no more than one representative from each group.

The meeting is to open with a presentation by Dean Pound on the work of the coordinating committee. This is expected to take about twenty minutes. Following this there will be general discussion of the Panel's report and related policy issues. This discussion will close up, however, will not be voted on until another special meeting on February 12. Additional motions will be received by the FAC Coordinating Committee until February 2. The committee will publish all the motions, and set up an agenda and order of presentation for the February 25 meeting which will be suggested to President Johnson.

Informal meetings

The Coordinating Committee has begun a series of small meetings in an attempt to keep the issues in people's minds. Last Monday six meetings were held in which over a hundred faculty members were involved. Five more meetings will be held tonight in the homes of faculty members and there will be one more tomorrow night. Invitations to the meetings have been sent to faculty members who were selected on a random basis. The meetings are an attempt to give faculty members a chance to hear a wide range of views on the issues since there has been an effort to have representatives of groups such as SACC and UCS at them. These informal groups will continue into February if response to them continues to be positive as it has been so far.

The President Committee of the General American has also been working with the Coordinating Committee. They have been talking to representatives of the I-Lab, SACC, and UCS in an attempt to get together factual information for a multimedia exhibit in Building 7.

WHY SAVINGS BANK LIFE INSURANCE BELONGS IN THE PORTFOLIO OF EVERY CONTEMPORARY MAN AND WOMAN.

Savings Bank Life Insurance is America's lowest cost life insurance for all Ordinary Life, Endowment, and Renewable Term. That's one reason why.

For example, under the SBL 30 year Renewable Term Plan, a man of 40 can buy $25,000 in Savings Bank Life Insurance for less than $100 a year (at age 35, the cost is less than $75 a year*). This makes it possible to provide extra protection—at lowest cost—at a time when families need it most. In addition, an SBL 3 year term policy is automatically renewable and convertible to any one of several permanent plans up to age 65, without additional medical examination.

This assures continuity of protection, no matter what health condition might develop. Another reason why is that although Massachusetts Savings Bank Life Insurance is available only to people who live or work in Massa- chusetts, you can keep any premium you own at the same low premiums even if you should leave the state. To learn more about the many kinds of SAVINGS BANK LIFE INSURANCE, visit our bank and ask for a free copy of the informative SBL FACTS booklet. While you're there, we'll be pleased to answer any questions you may have about SBL and you don't have to be a depositor or custom-

er of the bank to receive this service.

*Averaged on annual payment for 5 years, based on 1969 Savings Bank Life Insurance dividend scale.

S.B.L. IS 4TH IN THE COUNT1 OF ORDINARY LIFE INSURANCE IN FORCE IN MASSACHUSETTS OF APPROXIMATELY 166 LIFE INSURANCE COMPANIES LICENSED IN THE STATE.
