INTERESTED IN A CHALLENGING AND REWARDING SUMMER EXPERIENCE?

Come work at Camp Rising Sun, a unique scholarship program for boys, located in the Hudson River Valley at Rhinebeck, New York. Entering our 41st summer, we shall have about sixty selected aircraft mechanics, engineering, electronics, and construction positions. All volunteers are invited to attend. Any student who is interested in becoming an Urban Action Flight next term should contact the Urban Action office, room 437 of the Student Center, x2894.

BENCH WARMER: PRICE’S REPLY

(Continued from page 8) vote. I believe in this system, for I feel a person who dedicates 20 hours a week to a program should have a greater voice in the decisions of the President or the Association that is going to shape the future of the program.

Finally, I challenge you to find any more qualified representatives to the Board. The members’ records in their areas are impressive: Dan Tyler, varsity baseball; Pete Kramer, two varsity teams, knows more about the program than anyone, and has been a member of the Committee on Discipline, closely with this small chosen group before them. There is no better way to keep an eye on the administration than to have a person who has managed a program. Dan Tyler, Pete Kramer, a member of the Committee on Discipline, closely with this small chosen group before them. There is no better way to keep an eye on the administration than to have a person who has managed a program.

Not enough people are voting for Tenent and therefore the electoral board of that worthy organization is getting bored and also matched. I’ll be happy to publish soon. Therefore, all you bright and active people there out in the MIT booster clubs submit your writing and art work and photographs to Ed the Nick, Room 210-61 in the Student Center, marked clearly on the envelope “’Patronym for the Editor,” Thank you all.

MIT Gilbert and Sullivan Society auditions for “Paterson” will be held at 7:30 pm on January 12, 18, 19, and 20 in Reberth Room A, basement of Krege Auditorium, and on January 22 on the third floor of the MIT Student Center. Design and production positions are also available; interested people call 868-5326. String players are needed; and interested people should call 734-9181.

The Department of Metallurgy and Materials Science will offer a course in Techniques in Metal Sculpting in Spring 1970. Interested students should contact Mr. Tony Zona, x2297, room 4-133.

M.I.T. HUMANITIES SERIES 1969-70

Commodore wee wanted at Camp Rising Sun, a unique scholarship for boys, located in the Hudson River Valley at Rhinebeck, New York.
