Cold Blood, Fugs, Okie, and shorts

Cactus Flower

Cactus Flower is one of the best films of 1970. Directed by Conrad Hall, who also directed Cold Blood and Cactus, it is a technical masterpiece of its own right. Great pains were taken to achieve its technical realization, one that is only by comparison.

Emanuel Goldman

Cactus Flower is a stimulating film that has the power to move and affect. The performances are excellent, and the music is both haunting and beautiful. Despite its somewhat abstract nature, Cactus Flower is a film that should be seen and enjoyed by all.

Interactive Lectures on Astronomy

Freshmen with curiosity about astronomy but no great knowledge of the subject are invited to an experimental system containing related lectures and questions. This system is designed to encourage students to question and explore. If you would like to try the system, please write a short note to Stewart Wilson, Polaroid Corporation, 730 Main Street, Cambridge, MA 02139, stating your prospective MIT course, the hours you are free, and how you can be reached.

COLD BLOOD, FUGS, OKIE, AND SHORTS

It's all been done before - a cowboy story that refuses to die. But even in the West, there is the less obvious paradox, that just didn't exist in the once-competent Campbell. Fortunately, John Hartford, the dentist, has gotten through the hours once more on his own.

Cold Blood, San Francisco

Cold Blood is a strikingly beautiful film that captures the essence of the times. The story of a man who tries to become a super-star is both heart-wrenching and compelling. The characters are well-developed, and the music is both powerful and moving.

The Fugs

The Fugs are a great folk group who have been making music since the 1960s. Their sound is a blend of rock, folk, and country, and their songs are often political and social in nature. Their music is both catchy and thought-provoking, and their live performances are always a highlight.

Shorts

Please Tell a Friend - Sugar Creek (Metrograph)

Sugar Creek has been kicking ass in New England for a while. If you have yet to try them, you should. They have a great album. For those of you not lucky enough to have heard the pleasant, they play simple music which features the most obvious tone for blues and country music. Don't miss it.

Okie from...

Okie from Muskogee, by Merle Haggard and the Strangers

Perhaps you've heard the title song a few times as a wake-up call or a way to ease a bad day. The Fugs could shout who had a sense of the simple virtues of "pitchin' serious, looking for a groove." The Fugs' version has gained popularity, and many listeners have been won over by their unique interpretation of the classic country song.

Tell Them Willie Boy Is Here

Tell Them Willie Boy Is Here is a film that focuses on the struggles of a young band. The material, admittedly, is too stiff for the freely based style. But the Fugs' voice is a sort of plain-vanilla blues, which isn't terri-ble. The material, admittedly, is too stiff for the freely based style.

film: Cactus Flower

By Emanuel Goldman

Did you know that even with all those prickly, spiny needles, every once in a while, a cactus will send out a flower? Sounds pretty absurd, doesn't it? Well, that's what the story of the cactus flower is about. The film is a beautiful and thought-provoking exploration of the mysteries of life in the desert.

Cold Blood

Cold Blood is a film directed by John Huston, who also directed the classic films The Maltese Falcon and The Treasure of the Sierra Madre. The film is based on the novel by James M. Cain and tells the story of a man who becomes involved in a murder investigation.

The Fugs

The Fugs are a folk group from the 1960s who were known for their unique and experimental approach to music. They were part of the beat generation and were influenced by the counterculture of the time.
