**WE HAVE JUST ONE WORD FOR ENGINEERING GRADUATES.**

Opportunity.

Opportunity to become deeply involved in earth's last frontier, the ocean. Opportunity to apply all your ability to a wide range of challenging assignments in shipbuilding, nuclear propulsion, nuclear power generation, and heavy industrial equipment.

Opportunity for advanced degree or research work with leading research centers and universities. And opportunity to enjoy one of the country's most pleasant living and vacation areas.

Find out about immediate career opportunities with the MIT rifle team concluded its regular season in the Greater Boston League by defeating Boston State 1297 to 1164 Friday evening, making their record 13-1 in this league, clinching the Greater Boston Championship. Taking only five shooters to the Boston State match, the minimum required for a team, the MIT team lacked depth and so, had a bad team score. Karl Lamson '71 led the team with his 268, followed closely by Captain Dick Evans '70 with a 267. [Next came Bob Kirkpatrick '72 with a 260, Eric Kramer '71 at 256 and Jack Cheley '71 at 246.]

On Saturday the team traveled to the University of New Hampshire for a match in the New England League. Again, taking only five shooters, the team had no depth. Due to the rules, there is no minimum of two of the three shooters, though, the team had 1325 to New Hampshire's 1070. Cheley and Captain Evans were hot as they fired excellent 274's to lead the team, but the highlight of the whole meet was when Evans fired a New England record 98 in the knelling position.

Evans and Cheley were tied at 81 for top standing honors, while Lamson had the high phone score, a perfect 100, for a 507 total. Dave Hunt's 258 and Eric Kramer's 252 rounded out the team.

This pushes the team's record up to 18-3 overall. Saturday the team will fire against Boston College in the last match of the regular season in the New England League, a match which MIT is favored to win. After this match there remain two more meets, the New England Championship, to be held at MIT on April 11, and the Greater Boston Outdoor Tournament, to be held at Framingham in May.

**Hendrix Electronics Inc.**

s teaching practical Engineers in the following disciplines:

Computer Science; Circuit Design; Logic Design.

Part and full time positions on all levels.

Hendrix Electronics builds interactive programmable computer terminals and man-machine peripherals.

Ed Berg, Director of Engineering will be interviewing at the Placement Center of March 18, 1970. Interviews will be from 9:00 A.M. to 5:00 P.M.

**WOULD YOU LIKE TO START YOUR OWN CHURCH?**

We will furnish you with a Church Charter and you can start your own church.

**THE OPPORTUNITY COMPANY**

Newport News Shipbuilding and Dry Dock Company

- - a contact opportunity created by U.S. Company

**Most Life Insurance is a Bargain.**

When you consider a savings account running well into 5 figures, the affirmative to life insurance is a bargain.

However, when you get down to close comparisons, some life insurance is a highway than others. Well up on the list of bargains is SBLI BANK LIF E IN-

SURANCE, for a careful examination will show you that SBLI is America's low-

est cost life insurance for all Ordinary Life, Indebtedness, and Renewable Term.

For example, under the SBLI 5 year Renewable Term Plan, a man of 40 can buy $25,000 in Savings Bank Life Insurance for less than $10 a year* (at age 25, the cost is less than $75 a year*.) This makes it possible to provide extra protection at lowest cost at a time when families need it most. In addition, an SBLI 5 year term policy is automatically renewable and convertible to one of several permanent policies up to age 65, without additional medical examination. This assures continuity of protection, no matter what health condition might develop.

Another reason why SBLI is a bargain is the fact that although Massachusetts Savings Bank Life Insurance is available only to people who live or work in Massachusetts, you can keep your money you own at some time to save the state. In addition, you can find out for yourself about every bit of Savings Bank Life Insurance policy by visiting our bank, where on SBLI representative who is an officer of the bank will be pleased to answer any questions you may have. Or if you prefer, write or telephone us and ask for the free, informative SBLI FACTS booklet. And you don't have to be a depositor or customer of the bank to receive this service.

* Average net annual payment for 5 year Renewable Term, based on a $10,000 policy.

**SBLI** is 4th in the amount of ordinary life insurance in force in Massachusetts of all LIFE INSURANCE COMPANIES LICENSED IN THE STATE.

If you are interested in helping to defend our planet against the three greatest enemies of mankind—unlimited factual conflict potentially resulting in catastrophic total war, environmental pollution threatening gradual deterioration of the life support systems of the earth, and the presence of unchecked population growth—...you can afford is the ideological ammunition in the Internationalist Perspective. If you are tired of the partici-

pate cultural exchanges games of skill, the inconvenience of pacifism, and the bankruptcy of liberalism, you would not want to miss the ideas in The Internationalist Perspective. If you want to preview the concepts of the next century instead of hearing sterile repetitions of the last century's cliches, you can find solid food for thought in the pages of The Internationalist Perspective.

Our literature would be of particular interest to students of philosophy and to all sincere-

ly concerned about the problems of war and peace in this technol-

genically.
