Admissions at MIT—Part I

(Continued from page 2)

Two SI’s are computed by using achievement of a 3.5 cum as a freshman. Orders of previous classes one pointed out that by basing the information. Significant difference in CEEB scores; the other utilizes a based on the records of past been expressed as the percentage probability of the student’s achievement of the "Scholastic Index (SI)". This is called the Admissions Office calls the

The FCUASA’s 1969 report sharpening rotary blades that

If your beard feels uneven, you should be shaving your whole face.

The Cord Model Tripleheader has a pop-up trimmer that lets you see exactly what you're trimming. So it's a lot harder to miss shaves.

Now, run your hand over your whole face.

The Norelco Tripleshead has 3 Microgroove blades with shaving heads that pivot to follow the curves of your face. The heads grid in where your chin is, and out where your chin goes out. To give you a really close shave, it's made to glide along your skin. (In independent tests, the Tripleshead shaved as close or closer than the stainless steel blade in 2 out of 3 shaves.)

Feel your upper lip

The hard thing about shaving your upper lip with a razor blade is getting your chin away from your face. Again, the unique norelco design lets you maneuver the razor blade behind your ear, under your jaw, and over your beard to shave your beard in every direction.
