MIT blames landlord; 
UAG supports tenants

(Continued from page 1)

demolishing units without replacing them... The way MIT has treated the tenants in three buildings violates every commitment they have made to us about how they will deal with tenants in their Cambridgeport properties." One result of the situation is that MIT's role in Cambridgeport (e.g. Simplex) will be the focus of the Planning Team's next meeting, scheduled for tomorrow night at 7:30, according to Mrs. Laura Brown, the president.

On Tuesday, October 6, Herrey, Real Estate Officer Project Manager Leigh Woodward, and Brainerd Miles, assistant to the Chairman of the Corporation, toured the houses with tenants, architects and UAG members, to ascertain the true condition of the buildings. In Cambridgeport, they could not agree. UAG arranged the Friday open meeting and leaffleted for it.

Friday meeting

The administration was represented by Herrey, Miles, and Wadleigh. UAG in its leaflet had accused MIT of consistently demolishing low-income housing, and said that its program to demolish units would not be started until the Inner Belt roundabout was completed and that the administration was not being honest.

Prof. Paul Kilparry of UAG, addressing the meeting, opened with a broad statement and then turned to the floor over to Noble and several other tenants, who described their experience there. They had had to perform their own repairs, claiming that Murray had kept two sets of books, saying they'd let them repair it. They demanded to know what MIT was going to do for them.

Herrey opened by demolishing the UAG accusations, and got into a debate with Bob Siegal, MIT's research assistant and UAG member, over them. Throughout the session student radio station WGBH was under a torrent of questions, accusations and inter-

Budweiser

KING OF BEERS

Anheuser-Busch, Inc., St. Louis, Mo.63119

DEAR ED: Every now and then, I see guys putting salt in their beer. What's it all about? ALFIE

DEAR ALFIE: I'll tell you what it's about...it's about to drive me crazy! Now, I have nothing against salt. On hard-boiled eggs. Or french fries. But not in my Bud.

Putting salt in beer, some say, perks up the head...or brings up the taste...makes the beer "drier." With Budweiser, though, all salt can do is make it salty.

So save the salt for the popcorn, please. We put heart, soul and our exclusive Beechwood Aging into Budweiser. All you need to enjoy it is a glass...or drink it right from the can, if that's your bag...
